We are now slowly moving past the third industrial revolution and are advancing into Industry 4.0. Unlike the more drastic changes from between the previous industrial revolutions, however, Industry 4.0 simply takes the automation and machinery from the third and makes it better. How? Through smart systems using data and machine learning; the Internet of Things (IoT) and AI.

The Malaysian Export Academy (MEXA) will be organising the Seminar on Incentives and Funding to Promote Adoption of Industry 4.0 on 13 August 2019 (Tuesday) at Matrade Exhibition and Convention Centre (MECC), Kuala Lumpur. Register now to join this Seminar.
